TO WHOM IT MAY CONCERN:

My wife and I purchased a home built in the late 1920's approximately two and one-half years ago. At the time of our purchase we had very specific changes and modifications which we planned on making to our home. These changes included adding a swimming pool, adding a front porch, adding a tin roof, and repainting as well as other substantial changes.

When looking for a contractor, my wife and I did not hesitate before calling Curt Contich to perform and oversee all the work on our home. We have known Curt for several years and know him to be an excellent craftsman, builder and contractor. During the construction on our home we were faced with several setbacks and obstacles which made the construction to our home all the more difficult. Curt was able to handle all of these setbacks with absolutely no difficulty and continued the project in a professional and courteous manner.

My wife and I could not be more pleased with the work Curt performed for us, and we would highly recommend him for any job for which he may be considered.

Very truly yours,

Robert D. Erben
