

In the past three years I have renovated two homes. This would have been a daunting task had I not used the Contich Construction Company. Contich Construction employees showed up each day on time and completed each step of the renovations. Never once was there a need to call to find out when workers would show up. The Contich Construction employees are all honest, hardworking, and professional.

Having used other constructions companies in the past for renovations projects, I've found that no other company that comes close to providing such professional and timely job completion. I will not entertain using any other company outside of Contich Construction in the future.

Thank you Contich Construction for the ease of two major renovations!
