

May 5, 2006

Dear Curt;

Thank you again for your unparalleled work on our residential renovation project in Ocean Ridge. My wife and I are absolutely ecstatic over the look and layout of our home; the quality of the materials and labor that you organized and managed for the past two years has enabled us to fulfill our dream of living in a beautiful custom house in a lovely neighborhood!

From the day we reviewed the first print to the moment you handed me the keys, it has been an unmitigated pleasure working with you and your team. You have always been easily accessible, vastly knowledgeable, and thoroughly reasonable from planning and organization through construction, supervision and punch out. Moreover, your sub-contractors and tradesmen were always courteous, tidy, and prompt. Too, it was extremely gratifying that the entire project was completed within the originally proposed time frame.

Please contact me in the future if I can be of service in any way. I will most certainly recommend Contich Construction to anyone with whom I speak that may be interested in hiring a general contractor. Thank you from Roxanne and myself; we just adore our home!

Most Sincerely,

Christopher C. Frye
