To Whom It May Concern:

This is a letter to recommend Contich Construction Inc. After hurricane Wilma in 2005 our church buildings were in need of major repair. We were glad to have the guys from Contich Construction as part of the work. The work was done on schedule and completed in a professional and understanding way. We were especially pleased with the way Curt made sure all work was overseen and organized right to the very end of each project. It is good to have a local company that is dependable and efficient like this company.

  
Pastor Bill Gorman
